Madhur Gattani

Jersey City, NJ 07306 | madhurgattani5@gmail.com | +1 5513445268 | LinkedIn | Portfolio

EDUCATION

Pace University — **New York City, NY**
Master of Science, Information Systems (MSIS) | **GPA: 4.0/4.0** — January 2025 - May 2026

MIT ADT University — **Maharashtra, India**
Bachleor of Technology (BTech), Computer Science and Engineering | **CGPA: 6.97** — September 2020 - May 2024

EXPERIENCE

Operations Intern | BGAUSS Auto Pvt. Ltd — **April 2024 – September 2024**

- **Analyzed** 10,000+ rows of operational data using advanced Excel to deliver weekly MIS reports for performance tracking and decision-making.
- **Automated** 5+ reporting templates, cutting manual effort by ~30% and boosting data accuracy across departments.
- **Uncovered** trends across 3 departments, providing actionable insights that enhanced workflows and informed strategy.

Proffesors P.H.D. project | Assistantship — **February 2024 – May 2024**

- **Implemented** core web technologies (HTML, CSS, JavaScript, Python) to develop responsive and interactive web applications.
- **Executed** hands-on debugging, documentation, and decoding to streamline development and enhance code quality.
- **Applied** Python problem-solving and complexity handling to optimize performance and prepare for technical roles.

PROJECTS

Performance Analytics Data Pipeline & Dashboard System

- Built an automated Python ETL pipeline to collect and structure 5,000+ performance **records** into analysis-ready datasets and performed statistical trend analysis across 20+ performance metrics.
- Developed 18+ visualizations and dashboards, reducing manual data processing time by approximately 80% and demonstrating how performance data supports strategic decision-making.

Text-to-Structured Data Decision Support System

- Developed a real-time gesture recognition system translating hand signs into text and speech outputs by processing live visual input data
- Classified multiple gesture patterns into structured communication signals, improving interpretation speed by approximately **70%** and enabling accessible communication

Deloitte Australia Data Analytics Job Simulation on Forage

- Completed Deloitte simulation analyzing real-world business datasets to identify trends and create actionable visual reports
- Prepared Tableau dashboards and Excel models, improving decision-making efficiency by 30%.

TECHNICAL SKILLS

Consulting & Business Analysis : Business Analysis, Requirements Gathering, Stakeholder Communication, Process Mapping, Workflow Analysis, Decision Support, Change Management, Issue Resolution, Documentation Development, Operational Improvement

Data Lifecycle & Engineering: Data Ingestion, Data Integration, Data Cleaning, Data Transformation, Data Profiling, Data Validation, Data Standardization, Deduplication, ETL Workflows, Data Quality Monitoring, Troubleshooting Data Anomalies

Pragramming & Automation: Python (Pandas, NumPy), Python Automation Scripts, R, Workflow Automation, Excel VBA Macros, Advanced Microsoft Excel (Pivot Tables, Power Query, Power Pivot), Scheduled Reporting, Power Automate, Jupyter Notebook, Git and GitHub

Analytics & Reporting: Exploratory Data Analysis, Statistical Analysis, Trend Analysis, KPI Tracking, Performance Metrics, Operational Reporting, Ad Hoc Analysis, Monitoring and Tracking, Audit Support, Business Insights

Governance & Collaboration: System Governance, Record Management, Sensitive Data Handling, Cross Functional Collaboration, Client Communication, Workshop Support, Presentation Development, Reporting Deliverables Coordination

Databases & Systems: SQL, MySQL, PostgreSQL, Microsoft Access, Relational Databases, Record Tracking Across Systems, System Data Monitoring

RESEARCH

International Journal of Advanced Research in Science, Communication and Technology (IJARSCT) — **May 2024**
Sign Language Interpreter For Physically Challenged People

Building Data Pipelines Using Python: Hands on Web Scraping, Analysis and Visualization (ICERI) — **Dec 2025**
Building Data Pipelines Using Python
